Tabelle1

| Short description |
| --- |
| |
| Digital 4-Band EQ with additional HPF |
| Famous Tube EQ Style |
| |
| Clean digital compressor, with knee, sidechain and trick |
| Famous 19" Rack compressor with many modes |
| as Dis-Treasure, but compact GUI |
| Famous Opto-compressor |
| Famous FET-compressor with extra punch |
| as NC76, but with lower internal threshold |
| a limiter... |
| Expander / Gate, with HPF and anti-gate-trick |
| |
| Tremolo and spring reverb for guitars |
| 80s Style FDL Reverb |
| 90s Style algorith reverb |
| |
| classic deesser |
| spectral denoiser with extra features |
| an EQ for sidechain signals to filter compressor detectors |
| (Denoser) Tool to filter out resonances and nasty sounds |
| basic audio manipulation (Levels, Mid-Side, Phase...) |
| Compresses reverbs and delays when dry signal comes in |
| |
| A delay with extra features (Ping-Pong, Tape, Bitcrusher...) |
| Very advanced delay for complex delay structures |
| |
| Transient shaping and sustain/release shaping |
| Guitar amp simulation with many cabinet/mic combinations |
| Saturation effect with shelving Eqs |
| Tape-Machine with highs-loss, wow & flutter & more |
| Exciter for the highs, subharmonics for the lows |
| |
| Multi-mode channel strip with SumThing integration |
| Analog mixer sound signature, projectwide switching |
| SumThing, but in standalone mode (SI = Single Instance) |
| |
| A basic chorus/flanger modulation |
| Advanced modulation with many modes and options |
| |
| Level sending plugin for Console Meter |
| A VU-Meterbridge for up to 24 channels |
| A goniometer / phase meter |
| Simple VU meter for you mixer in MCP mode |
| VU meter style multimeter (Loudness, RMS, True Peak...) |
| Tool to check for you SNR before recording |
